

Recology is a leader in the resource recovery industry. We provide services throughout California, Nevada, and Oregon, including collection, transfer, disposal, landfill management, composting, and recycling. We are the largest employee-owned company in our industry and our success has stemmed from the dedication of our employees, the service we provide to our customers, and our genuine concern for a sustainable environment.

Recology Grover Environmental Products in Vernalis and Modesto, CA is currently looking for a **Composting Operations Manager 2**.

The Composting Operations Manager's essential duties and responsibilities include the following:

- Plans and manages operations related to composting.
- Collaboratively interfaces with members of the public and private sector; participates in community and Company activities.
- Promotes and sells services to potential customers. Investigates and resolves customer inquiries and complaints. Adjusts rate and billing disputes.
- Keeps records of operations and submits reports as directed.
- Prepares or assists in preparing budgets and plans for composting operations.
- Inspects operations and ensures compliance with regulations, company policy, safe practices, and high standards of environmental protection.
- Other duties may be assigned.

Qualified candidates will have:

- Bachelor's degree or equivalent combination of education and experience.
- Requires 4+ years related experience.
- Detailed knowledge of composting and management of composting operations.
- Includes highly technical knowledge of composting services and procedures.
- Ability to speak, read, and write clearly in English.
- Ability to read, analyze and interpret reports.
- Good customer relations skills.
- Valid Class C Drivers license.
- Bilingual (English/Spanish) preferred.

If you meet the qualifications of this position and are interested in applying, submit your resume, cover letter, and salary requirements to:
