-Flocked trees are considered trash and will
NOT be collected at curbside, green cart or
drop-off program

Get a "Bag Habit"

If you haven't made the switch to reusable shopping bags,
now's your last chance. As of September 1st you'll be charged
10 cents per paper bag at grocery and retail stores throughout
Sonoma County.

On February 19, 2014 the City and County members of the
Sonoma County Waste Management Agency passed Ordinance
No. 2014-2 establishing a Waste Reduction Program for Carry-
out Bags and a related administrative penalties law. The law is
intended to reduce litter, keep plastic bags out of local waterways,
and encourage the use of reusable bags. Just in Sonoma County, it
is estimated that 232 million plastic bags and 46 million paper bags
are used each year.

"Bag your Bags"

The Ratto Group at Rohnert Park Disposal knows that there are still bags being produced so until plastic
bags are obsolete, we will accept them. Please just be sure to place all bags into one big bag before
placing it in your recycling cart or bin! Examples of recyclable plastic bags are all clean, dry bags labeled
#2 or #4, bread bags, case wrap from water bottles, or dry cleaning bags just to name a few. Grocery stores
will have drop off locations for plastic bags as well.

Most grocers' and large retailers such as Target and Wal-Mart now accept the plastic bag, wrap, and film
for recycling. Look for a bin near the front of the store or check for local recycling options nearest you.

To help residents get the bag habit and support local jobs, the Sonoma County Waste Management
Agency has contracted with BPE-USA Santa Rosa, to produce 10,000 reusable shopping bags. The reusable
bags are produced from local sources that have an overstock of materials. Funding comes from the
Sonoma County Waste Management Agency with support from community organizations, individuals,
and businesses.

Some tips to help you to get the bag habit include putting your bags where you will see them. Carry them
next to you in the passenger seat or hanging from a knob instead of the trunk or backseat of your car.
Before you go into a store, check to make sure that you have your reusable bags in your cart or basket.
If you forget a bag, you can find reusable bags for sale in most stores. If you only go shopping for a few
items, you can also avoid the charge by going bag-less.

Plastic bag facts

- One single plastic bag can take up to 1,000 years to degrade and also remain toxic after they break down.
- Though efficient to produce, it is crucial that plastic bags be reused and recycled and kept out of natural environments because they do not biodegrade quickly and can cause problems for wildlife when improperly disposed.
- Plastic bags are the most visible source of litter we see on most streets and freeways today.

You can see a calendar of events at www.recyclenow.org/reduce/carryout_bag_reduction.asp get your bag (while supplies last).

Visit <http://www.recyclenow.org/business/carryoutbags.asp> to get the facts about the ordinance, to find suppliers of ordinance-compliant checkout bags and to download bilingual customer education materials. For additional questions, email recyclenow@sonoma-county.org or call 707-565-3375.

Keep Your Green Clean!

Keep your cart clean by wrapping your food scraps in a
brown paper bag or newspaper.

The following materials are banned from your yard waste
cart

- garbage • sod or dirt • rock • gravel or concrete
- lumber • playground bark • plastic bags • nursery pots or plastic • pet waste • palm fronds • processed or treated wood products • bamboo • cups, packaging & straws • liquid waste & ice • plastics • cardboard • take-out containers • compostable plastics (even bio-bags)
- synthetic corks • waxed cardboard • poison oak
- Sudden Oak Death infested material • BBQ ashes
- tree stumps • meat & bones • seafood & shells
- cheese • dairy products

Rohnert Park Recycling News

Guidelines & Reminders from Customer Service

To help us provide the best service to you, please observe the following:

- Place carts at the road edge the night prior to your service day.
- Please leave 3 feet between garbage, recycling & yard waste carts.
- Place garbage loosely in your cart. Carts that are overstuffed or have material jammed into them may not empty completely.
- Please remove your containers from the road edge as soon after they have been serviced as is practical.

- Be sure all items are contained inside your carts. Carts that have items sticking out of them or have material piled on top may not be emptied or may receive additional charges.
- You may opt to set out recycle and yard waste carts only when full if you choose.

For everyone's safety and convenience, we request that you pay special attention to the following:

- Do not place carts within three feet of vehicles, mailboxes, fire hydrants, other obstacles or personal property.
- Collection vehicles need 14' overhead clearance. Carts should not be placed in an area with overhangs, trees or other obstacles.
- Please park your car in your driveway the night before your collection day whenever possible. There may be a delay in collection of blocked carts.
- If you have any questions, please call or check out our new on-line chat option at unicycler.com.

Extra Trash

- If you have an overloaded garbage cart or extra bags of garbage piled on top of, or alongside your cart, you may receive an automatic charge for each extra bag or can of garbage. Carts are considered overloaded if the lid will not close.
- If you have extra garbage, call our office at 586-2283 by 2:30 pm the day before your regular collection day to order extra service and avoid confusion when you receive your bill. Do not overstuff your carts as they may not empty completely.

Bulky Item Pickups

The Ratto Group - *A family of companies* local hauler (Rohnert Park Disposal) offers Bulky Item Pick up for items that are too large for your cart.

Items such as mattresses, couches, and large furniture items can be picked up for a fee for single-family residential customers. Call Rohnert Park Disposal at 586-2283 to schedule a pick up.

We make any attempt to reduce, reuse and recycle your bulky items and keep them out of the landfill. Help us out by trying to donate your item before disposing of it.

Please Remember:

- We are unable to pick up hazardous waste. Call the HHW hotline at 795-2025 or visit unicycler.com for more information.
 - Please direct reusable items to thrift or second hand stores.
- *Certain items have pick-up fees. Please call or chat online at unicycler.com for details.

Our "Green Family" - Partners in Food Waste Recycling

Our "Green Family" consists of businesses in our community who currently take advantage of our Food Waste Recycling program. Please support and thank them for making every effort to reduce our local footprint.

Save Yourself Some Money!

If you are generating less waste, you can reward yourself with a smaller garbage bill by exchanging your current cart for a smaller size.

We offer four levels of service. Super recyclers or small families may be able to reduce their waste and subscribe to the 20 gallon service.

If you would like to change your service level, please contact our office for details and rates.

Yard Waste Guidelines

- Place all grass cuttings, leaves & weeds, tree & shrubbery trimmings, berry bushes and other yard & garden waste inside your green rolling cart, also referred to as your yard waste cart. Branches under 4 inches in diameter and less than 2 feet long are accepted.
- Also accepted in the yard waste carts are food scraps such as fruits and vegetables (including pits and nuts), coffee grounds with filters, tea bags, kitchen prep scraps, bread, grains, pasta, baked goods, eggs, eggshells and non-coated paper products such as paper plates and napkins. **No meat, bones, dairy or seafood products in the yard waste cart.**
- Place your yard waste cart at the curb allowing at least three feet of space between containers.
- All green waste must be in the container. Loose material will not be collected.
- Do not put yard waste in plastic bags.
- Please put your garbage in the correct can. Contamination can lead to higher costs and higher prices in garbage service.

Got Cooking Oil?

Plan on cooking this holiday season? Not sure what to do with leftover oil and grease? Fortunately, there is a solution. Several Sonoma County restaurants accept clean, liquid vegetable oil that is mostly free of any solids, meat scraps or water. Yokayo Biofuels, a CDFA-licensed grease collection center based in Ukiah, collects used vegetable oil and processes it into biodiesel. Visit recyclenow.org and see the Recycling Topics Database Search and look under "grease/food service oils" for additional Sonoma County locations that accept clear cooking oil. Or call 565-DESK for more information.

The following locations accept up to 10 gallons of clean vegetable oil that is free of any solids or water. Please call for hours and delivery instructions.

Betty's English Fish n' Chips

4046 Sonoma Hwy Santa Rosa, (707) 539-0899

Coco's Bakery Restaurant

Willowbrook Ale House

3600 Petaluma Blvd N. Petaluma, (707) 775-4232

Ask the Unicycler

Dear Unicycler,

I really don't want to send gift wrap to the landfill during the holidays this year. Can wrapping paper go in the blue recycling cart instead?

Signed,

Wrapping Waste Worrier

Dear Wrapping Waste Worrier:

Fortunately, a lot of gift wrap options can be recycled! Any non-metallic wrapping paper, tissue paper, gift boxes, and paper gift bags can go in the blue recycling cart, even if they still have tape and gift tag stickers attached. However, metallic wrapping paper, bows and ribbons, metallic gift bags, and filling such as Styrofoam peanuts and shredded plastic, must all go in the trash.

An easy way to avoid sending gift wrap to the landfill is by using eco-friendly alternatives. For example, you can re-use paper you already have in the house as gift wrap such as newspaper, brown paper bags, old maps, or colorful calendar pages. If you do want to use traditional gift wrap, try to purchase wrapping materials that have recycled content whenever possible. Also, try wrapping the gift in a reusable item that can be a part of the gift such as reusable tote bags, baskets, scarves, or other textiles that can be used as wrap. In addition, try and save bows, bags, and gift boxes to reuse for the following year. Reusing materials will save money and decrease the amount of waste going to the landfill!

Yes!

- Aluminum Cans
- Steel & Tin Cans
- Bimetal Cans
- Empty Paint/ Aerosol Cans

No!

- Plastic Caps
- Styrofoam
- Loose Caps less than 4"

Why is it Important to Recycle Used Motor Oil and Oil Filters?

- Used oil can contain contaminants such as lead, magnesium, copper, zinc, chromium, arsenic, cadmium and chlorinated compounds.
- Don't pour used motor oil down the drain or on the ground. One gallon of used motor oil can pollute one million gallons of drinking water.
- Used motor oil represents more than 40 percent of the oil pollution in our country's waterways.
- Used oil is easy to recycle. It can be re-refined into usable motor oil.

- Recycle your used oil filter. Even after draining, used oil filters contain about 10 ounces of used oil, as well as one pound of reusable steel.
- All the used oil filters sold annually in California could be recycled into 67 million pounds of steel, enough to build three large football stadiums!

Here in Sonoma County we recycle 3,800 gallons of oil per year. Recycling used oil and filters reduces our dependence on foreign oil, saves valuable resources, protects the health of our families, and is the only legal way to dispose of them! You haven't finished changing your oil until you've taken this last important step. There are two convenient options for recycling used oil and filters in Sonoma County:

Curbside recycling service for used motor oil and filters!

Call Customer Service at 586-2283 or 800-243-0291 to request a special container and zip-lock filter bag. Then call our office to request a pickup. Place oil and filter at the curb next to (not in) your recycling cart for pickup on your regular collection day. The driver will leave a replacement container when your full one is collected.

Drop-off Recycling Locations!

There are many locations in Sonoma County that accept motor oil for recycling. Most also take filters. To find a list of locations nearest you, visit http://recyclenow.org/toxics/motor_oil_dropoff.asp. Or check your Sonoma County Recycling Guide in the AT&T Phone Book. Find it behind the tab under Recycling in the AT&T Yellow Pages.

Chat Live Now!

New!

No need to spend your time on the phone. Simply go to unicycler.com during business hours and click on the "Chat Now" option on the right side. A Customer Service Agent will be able to handle whatever situation you may have. Or, if it's past business hours, click on "Leave a message" and we'll get back to you within 24 hours.

One Planet, One Place

Did you know the First One Planet Community in North America is right here in Sonoma County?

It's called **Sonoma Mountain Village** and it's in Rohnert Park! This 200-acre mixed-use planned community is a prime example of recycling – or adaptive reuse. As a former technologies campus, it now finds higher purpose in combining existing commercial space with fun amenities, rich culture and community as well as plans for 1,694 new homes, 4,400 residents, 3,300 jobs and 100,000 more square feet of commercial space. Complete with plans for a vibrant and dynamic Town Square, it's all about living a happier, healthier lifestyle while being part of a vibrant community.

As the first One Planet Community® in North America, Sonoma Mountain Village is part of an international network of communities that intend to bring about neighborhoods that reduce our ecological footprint to a truly sustainable "one planet" level. Sonoma Mountain Village is guided by a framework of 10 principles and a One Planet Sustainability Action Plan developed and approved by Developer Coddling, BioRegional North America and WWF International. The plan was vetted by BioRegional UK's Technical Review Committee and reflects the opportunities and challenges we face to enable a one-planet Ecological Footprint in the USA where the average resident has a footprint of 5.3 planets.

At Sonoma Mountain Village, a luxurious lifestyle coupled with environmental awareness will be most prominently displayed in The Square where plans include a mix of retail, dining and entertainment options. Meet your friends for lunch, pick up fresh organic produce from the Farmers' Market, go shopping, enjoy a picnic, celebrate community events or be entertained by local musicians! The One Planet Lifestyle Concierge located in The Square will welcome newcomers and return visitors, offer classes and workshops on products and new technologies, host events, sell goods and offer news of One Planet Communities around the globe.

It's all wrapped up in SOMO Living®, our own special brand of One Planet Living...Sonoma Style! Come see for yourself at the Sonoma Mountain Village Event Center and Sally Tomatoes Café or by attending a SOMO Concert or shopping at the new Sonoma Mountain Village Marketplace.
