

PLEASE PLACE YOUR CARTS 18" APART

Your garbage, recycling, and yard waste carts are collected by an automated truck. This means a mechanical arm retrieves, empties, and sets the cart down in the street without the driver leaving the truck.

This efficient collection system works best when all of the containers are at least 18" apart.

OBSTACLES:

Place carts at least 18" from obstacles such as basketball hoops and vehicles.

THANK YOU! FOR MORE INFORMATION, CALL (408) 842-3358.
