Recycle your Batteries!

Many batteries are purchased during the holiday season. Buy rechargeable batteries to accompany your electronic gifts, and consider giving a battery charger as well. Rechargeable batteries reduce the amount of potentially harmful materials thrown away, and can save money in the long run.

You can recycle your batteries at home. You can put regular household batteries (AAA-D, 9V, button cell, rechargeable) in a clear, zippered bag and set them on top of your brown recycling cart. Batteries cannot be thrown away.

Recycling Electronic Waste

Electronic waste, also known as E-waste, is harmful to the environment when improperly disposed of. If your unwanted E-waste is still in good working condition, donate it! Call the **Santa Clara County Household Hazardous Waste Hotline** at **(408) 299-7300** or go to **HHW.org** to find local places that need your unwanted items for reuse or recycling.

When you go to **HHW.org**, click on **"Approved Electronic Waste Collector"** on the right side of the page.

You may also recycle these items at a Santa Clara County Household Hazardous Waste event.

Please schedule an appointment before dropping off your items.

Do You Recycle at Work?

Do you work in Morgan Hill and recycle while at work? If yes, that is great! If your workplace does not have a recycling program, or if your program needs improvement, call Recology South Valley at **(408) 842-3358**. Julie Alter, Waste Zero Specialist, is available to assist you with these issues.
