

Proper Cart Set Out

Recology Del Norte would like to remind you how to properly set your carts out for service.

SPACE YOUR CARTS O-U-T!!

Like this:

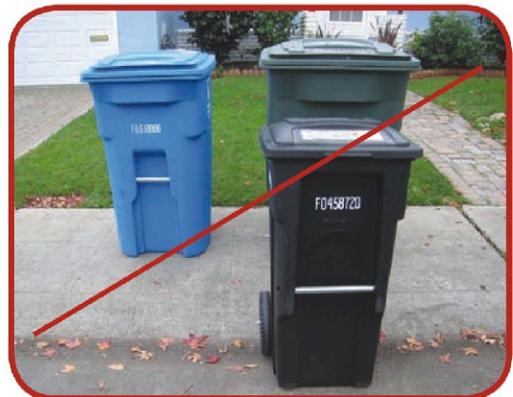

Carts must be placed curbside (in the street) with wheels against the curb, or roadside, with about 36 inches between each cart. Arrows on lids should point toward the street.

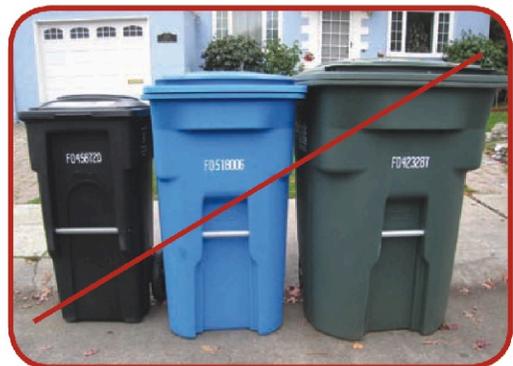

NOT like this:

Carts should face the same direction, with the wheels against the curb.

Make sure your carts are set out 3 feet apart.

If you have questions about your cart placement, please call us at 464-4181 or email recologydelnorte.com
