

TOXIC PRODUCT DISPOSAL FOR RESIDENTS

San Francisco has recycling and safe disposal programs for just about every product that's lying around your home. There's a free pick-up service, drop-off days, and conveniently located neighborhood drop-off sites for all those items that don't go in your black, blue, or green carts.

This brochure lists more than 100 local businesses that accept certain household hazardous wastes, such as leftover latex paint, household batteries, fluorescent tubes and bulbs, and various electronic devices from San Francisco residents. Always call the drop-off site to find out if there are any restrictions or special instructions for the items you want to bring in.
