

New Expanded
Green Cart Service!

Property Manager

RE: NEW GREEN CART SERVICE

Dear Tenant,

We are adding green cart service for food scraps and soiled paper starting _____.

This will help our building reduce waste, protect the environment, and put us in compliance with San Francisco's Mandatory Recycling and Composting Ordinance.

In addition to having access to a green cart (located next to the blue recycle cart), you will receive a kitchen pail with info about the program to make collecting food scraps easy.

You can use paper or compostable* bags to line your pail. This will help keep the pail and green cart clean. **Please DO NOT put plastic bags in the compost.**

*bags must say "compostable" (biodegradable is not the same thing). They can be purchased at Walgreens, Whole Foods, Cole Hardware, Rainbow Grocery, many other SF locations, or online.

Other free options for containing your food scraps:

These are the materials that go in the green cart:

All food scraps (meat, bones, seafood, fruits, vegetables, coffee grounds)

All soiled paper (paper cups, paper plates, napkins, paper towels, paper take-out boxes, coffee filters, pizza boxes, greasy paper bags, etc.)

All yard trimmings, flowers, and plants

No plastic, metal or glass.

For more info go to: www.RecologySF.com

Sincerely,

Your property manager
