Metal Bins

Bins are available in a variety of sizes. The most common sized bins are listed below. However, larger containers including 15, 20 and 30 cubic yards are also available. For compactor service, please contact us for more information.

SIZE	LENGTH	WIDTH	HEIGHT
1-cubic yard	82"	29"	39"
2-cubic yards	82"	40"	53"
3-cubic yards	82"	47"	62"
4-cubic yards	82"	56"	68"
6-cubic yards	82"	70"	72"
8-cubic yards	82"	73"	91"

*Container dimensions may vary. Not all bin sizes are available with wheels.

Recycle More, Save More! It's a GREEN Idea!

Containers and Signage

Recology can provide your business with a free starter kit of internal containers and posters (subject to availability).

Waste Zero Specialists

Our professional team of Waste Zero Specialists provides free technical assistance including on-site waste analysis, staff trainings, and presentations.

To learn more about our programs and services, please contact us so that our team can help you conserve natural resources and reduce waste that goes to the landfill. Together we can make a difference.

Recycling, Compost, and
Solid Waste Collection**

Recycle

Customers that subscribe to garbage collection service are eligible for single-stream recycling service at no additional charge.

By increasing recycling and reducing your garbage, it's possible to lower your garbage service level, which results in cost savings. Show your customers, employees, or tenants that you care about your impact on the environment, and increase your visibility as a community leader.

Mandatory Commercial Recycling Law (AB 341) requires all businesses that generate four (4) or more cubic yards of garbage per week, and all multi-family complexes (5+ units) to arrange for recycling collection. To learn more, visit CalRecycle.ca.gov

Paper, Cardboard, Milk & Juice Cartons, Paper Egg Cartons, Newspaper, Magazines, Junk Mail

- Juice & soy milk boxes with foil liner
- Paper towels, plates, and cups
- Pizza boxes
- Plastic bags & soft plastics
- Plastic cutlery & straws
- Styrofoam
- Wires, banding, chains & cables
- Wood

RECYCLING

Compost

Recology collects organic material in your green compost container and diverts it from the waste stream. This significantly reduces the global warming impact from landfills, as decomposing food scraps release methane, a major source of greenhouse gas emissions.

Compost collection services may be offered at a reduced rate. Your bottom line and the environment will benefit!

Mandatory Commercial Organics Recycling Law (AB 1826) requires businesses and multi-family complexes (5+ units) that generate specified amounts of organic waste to arrange for organics collection. To learn more, visit CalRecycle.ca.gov

Food Scraps, including Meat, Shells, Fish, Bones, Fruit, Vegetables, Dairy

Yard Trimmings, Untreated Wood Pallets

Food & Beverage-Soiled Paper, Waxed Cardboard

NO...

- Aluminum foil, trays, metal

- Diapers
- Glass
- Gloves
- Juice & soy milk boxes with foil liner
- Liquids
- Palm fronds
- Plastics
- Plywood, treated & painted wood
- Styrofoam
- Sod, dirt & rocks

CHANGES

Garbage

The best and highest use of some items has not yet been determined. Unfortunately, these items must be placed in the gray bin or black cart and transported to the local landfill.

To help you develop an efficient recycling program, our expert team will help assess and offer you the most cost-effective service to meet your needs.

California law prohibits the disposal of hazardous waste in landfills. These materials may contain mercury, lead, and other substances that are hazardous to human health and the environment. To learn more, visit CalRecycle.ca.gov
