

Hello, readers!

It's been one full year since Recology began our new contract with San Benito County, the City of Hollister and the City of San Juan Bautista for recyclables, organics, and waste collection services. What better way to celebrate than with a newsletter? After all, the traditional gift for a one-year anniversary is paper!

During the first year of the new collection program, you, our customers, made remarkable strides in diverting materials sent to landfill. In fact, **your combined diversion rate increased by 50%**, across all customer segments.

How did you do this, you might be wondering? Some of the past year's highlights include:

1. You helped recycle 7,650,000 lbs. and compost 16,252,000 lbs. of material.
2. Together we donated nearly 300 cubic yards of compost to the community.
3. Recology employee owners had thousands of personal interactions with our customers at events and activities across the county.
4. We connected with so many of you on social media! Follow us [@RecologySanBenitoCounty](#)

It's clear that the residents of San Benito County are passionate about reducing waste and dedicated to Recycling Right. This year has presented some never-before-seen challenges, but you've continued to do your part! I speak for all of us at Recology San Benito County when I say thank you, and we look forward to another successful year!
