Food waste and green material collection starts weekly in January 2022

Senate Bill 1383 (SB1383) is a law enacted by the State of California that builds upon the state's leading commitments to reduce greenhouse gas emissions and air pollution statewide. SB1383 requires all businesses and residents to divert organic materials (**including food scraps, uncoated soiled paper, and yard waste**) from the landfill.

Starting January 1st, 2022, regulations take effect. This law also requires the state to increase edible food recovery by 20% by 2025.

Recology of the Coast will begin our composting program on the **week of January 3, 2022**. Your 96-gallon green cart will be picked up weekly with your garbage and recycling carts. All three carts should be placed curbside no later than **5 am on pickup day**.

The additional thirty-gallon green cart will no longer be accepted starting January 2022.
