

## May Fair Returns!

After a historic two year absence due to Covid-19, the Dixon May Fair is back! Don't miss the celebration on Saturday, May 7, when the Drill Team from **Recology Dixon** will be rocking the streets at the 145<sup>th</sup> Dixon May Fair. The entire **Recology** team will be out in full force during the parade. The Drill Team will thrill the crowd as they run a series of cadence-style routines. Behind them will be a vintage truck supplying the musical soundtrack for the **Recology** team.

"We are so thrilled that the May Fair parade is back," said General Manager Scott Pardini. "It gives us the chance to demonstrate our skills to neighbors, family, and friends."

The Drill Team uses old-fashioned collection cans as part of the complicated drills. Company mascots "Buddy" the blue recy-

The **Recology Dixon** Drill Team readies to perform for the Dixon May Fair judges during the 2019 Dixon May parade. **Recology** employees, family and friends celebrate in the vintage truck in the background.

cling Toter® and "Binny" the green yardwaste Toter® will dance and give "high-fives" to the children in the crowd.

"We can hardly wait to celebrate in Dixon," said Pardini. "The May Fair is the highlight of the year. We will be there to support the community and hope everyone comes out to cheer us on."

## Learn about SB 1383

Senate Bill 1383 is now in effect and impacts many businesses in California. Waste Zero experts at **Recology Dixon** will help you comply with all organic waste regulations established by Senate Bill 1383. Check the chart on the back page for a summary of the SB 1383 regulations.

Many commercial customers are also impacted by AB 1826 that requires them to subscribe to both recycling service and organic service. Businesses and multi-family complexes generating two or more cubic yards of solid waste per week are now required to recycle their organic waste under AB 1826 regulations that set goals for communities to increase organic

waste collection efforts over time.

Assembly Bill 341 is an additional regulation requiring commercial customers who generate four cubic yards or more of trash per week to subscribe to recycling service. Residential properties with five or more units must also subscribe.

**Recology** will help you implement a program that works best for you and meets all the mandated regulations. If you have questions about these regulations or want to check the status of your compliance, just contact a **Recology Waste Zero** expert at [recology.com](http://recology.com) or call us at 707-678-4026.

Spring 2022

# Information and Updates

## The Recology Way!

## Covid-19 Updates

Ariana Owens

Ariana Owens has only worked as a **Recology** Customer Service Specialist for seven months, but she already raves about her new career.

"Our customers are passionate about recycling and passionate about keeping the community healthy and clean," Ariana explains. "People want to know how to do things right, so I'm here to solve problems and to help people understand the rules."

Ariana especially likes the family feeling of working in the **Recology** office.

"It is a different type of atmosphere here," Ariana said. "The employees here are happy in their lives and happy in their work. My co-workers make this such a great place to work."

Ariana lives in Vacaville where she raised her son Jayden Norris (age 19) and is raising her daughter May, age 14. May attends Will C. Wood High School in Vacaville.

### Senate Bill 1383

- Effective on January 1, 2022.
- Requires all commercial customers to subscribe to organic waste recycling service.
- Employees must properly sort materials for recycling and organic waste recycling.
- Recycling bins featuring sorting labels will be required in customer areas.
- Select businesses will be required to participate in an Edible Food Recovery Program.
- Food is the largest single source (15.5%) of all waste in California.
- More than six million tons of food products are discarded in California landfills every year.
- The **Recology** compost facility has been converting food waste and green waste into rich organic compost for years.

**Recology Dixon** continues to provide collection service without interruption during the pandemic. Following is a summary of services currently offered to customers:
