

SENATE BILL 1383 COMING SOON

American Canyon residents will soon be able to put more food scraps and food-soiled paper into their green yard waste carts. A new California law, SB 1383, went into effect on January 1, 2022. This law requires that all residents and businesses must subscribe to a three-cart program: recycling, organics, and garbage.

Recology is working with local agencies to finalize the details of implementing this new law in the City of American Canyon. Customers will be notified once the organic items can be included in the green cart. Those that do not have three-cart services will be contacted to set up organics service.

WHY COMPOSTING MATTERS

CalRecycle estimates that more than 40% of the waste disposed in landfills could have been composted instead.

Keeping food and other compostable materials out of landfills is one of the easiest actions you can take to reduce your carbon footprint. Learn more about the benefits of composting at [Recology.com/SB1383](https://www.Recology.com/SB1383).
