JOIN THE COMMUNITY CENTER CONVERSATION

Our beloved 73-year-old Community Center, which has been the heart of our community for generations, is in dire need. The center has been heavily used over the years, providing a space for gatherings, events, and activities that have brought us together as a community.

The City of Belmont is working hard to secure the continuity of the Community Center, which includes utilizing developer contributions from new construction and seeking infrastructure grant funding opportunities to leverage for Community Center needs. Should the City also consider utilizing the facility as an emergency relief center, the City may seek matching funds from the State or County.

But, we can't do it alone—we need your help! Make your voice heard by joining the Community Center Conversation online or by attending a presentation. Visit www.belmont.gov/communitycenter for more information.

STORM PREPAREDNESS

Now is the time to take action and protect your property from potential storm damage. Make sure to clean your gutters, remove leaves and debris properly to prevent flooding, and fill sandbags in advance to guard against heavy rainfall. Sandbag stations are located at the Public Works Corp Yard (110 Sem Lane), Barrett Community Center parking lot (1870 Ralston Ave.), and Belmont City Hall (1 Twin Pines Lane).

These simple steps can help keep your home and community safe during the stormy season. Visit www.belmont.gov/storms for additional resources and storm updates.
