

nothing to waste

Every day is Earth Day in Placer County – thanks to One Big Bin and nearly complete upgrades at the Western Placer Waste Management Authority. We'll capture more recyclables than ever, and we don't need separate bins to do it! Fewer bins, fewer trucks, more recycling - win-win-win!

no organics to waste

Organic wastes generate methane, a potent greenhouse gas, when they decompose in a landfill. Upgrades at the WPWMA will recycle even more organics than before, but you can help with a few easy steps!
