NEW Recycle **and** **NEW** Compost bins in

Visitors can now sort their waste properly at the new recycle, compost, and landfill bins available on B Street between 1st and 3rd Avenue in the pedestrian mall.

Thank you for doing your part!

Downtown San Mateo!

Recycling saves energy and conserves resources. Composting prevents climate change and improves our soils. By choosing to recycle and compost correctly, you are helping support your community and the environment.

Compressed Gas Tanks

Did You Know?

Propane tanks and fire extinguishers are considered hazardous and are dangerous to put in curbside bins.

Bring compressed gas tanks to San Mateo County's Household Hazardous Waste facility where they can be safely disposed of.
