DAYLIGHTING LAW

California's new Daylighting law prohibits drivers from parking or stopping within 20 feet from the vehicle

approach side of a marked or unmarked crosswalk, or within 15 feet of the vehicle approach side of a crosswalk with a curb extension. The Foster City Police Department is currently taking an educational approach to enforcement, with the intent of helping the public understand the new law before ticketed enforcement begins.

OFF THE GRID RETURNS

From April through October, come to Off the Grid every Wednesday night from 5-9pm in the Leo Ryan Park meadow for a variety of tasty food options from local vendors, plus live music! Check out the weekly food truck lineup on the Off the Grid webpage.

COMMUNITY CENTER CONSTRUCTION PROJECT

Construction of the new Foster City Community Center is on track for Summer 2026 completion! Here’s what’s been going on lately:

- Auger pile production and concrete testing have been completed.
- Excavation for pile caps, grade beams, elevator pits, and electrical vaults have been initiated.
- Preparations for pile chipping and formwork have begun.
- Deep underground trenching for plumbing and electrical is underway.

Stay updated with the project by visiting the dedicated website and subscribing to the monthly Foster City Community Center Construction newsletter.
