

Friendly Reminder

Recology will be conducting bin inspections

Recology, on behalf of the City of Redwood City, will be performing contamination monitoring, also known as “Route Reviews”, of residential and commercial landfill, recycling, and compost bin contents.

These annual reviews are required by the State of California and Senate Bill 1383 to assess contamination levels of each of the waste streams.

This is an effort to keep our waste streams clean and increase what is recycled, composted and recovered.

Recology Waste Zero Staff Conducting SB 1383 Waste Bin Audits

The reviews will take place starting June and will span throughout the Summer.

For more information about Route Reviews and SB 1383, visit RethinkWaste.org/SB1383

Redwood City Environmental Rebates 2026 Summer Campaign

Our goal is to give away **150** environmental rebates to Redwood City homeowners by **September 30th!**

Choose one or all of these high-impact home upgrades:

- Replace your gas water heater with a Heat Pump Water Heater (\$500)
- Upgrade your heating and cooling to a high-efficiency Heat Pump (HVAC or mini-split)! (\$500)
- Go solar! (\$500)
