Don't pile leaves on the street. They can clog storm drains. Put leaves in your green cart or use them as mulch.

Holiday composting

Composting is a gift we can give the environment, especially during the holiday season. Put pumpkin rinds, coffee grounds, turkey bones, and other food scraps in the green cart to help make nutrient-rich compost for farms and gardens. Learn more about composting and California's SB 1383 mandate at recology.com/sb1383. Together, we can reduce waste, conserve resources, and create a cleaner, greener future.
